

St. Amant Autism Programs Enhanced Consultative Services

The St. Amant Autism Programs offers Enhanced Consultative Services to students diagnosed with Autism Spectrum Disorder (ASD) who have previously participated in the St. Amant Autism Programs. This service provides students and their education team access to consultation, individualized intervention and workshops.

Services include the following options:

Consultation

We are available to provide support to the student and the education team throughout the school year for support with skill development, to make documented recommendations, and to participate in planning meetings as requested.

Individual Intervention

For students who require a formal learning program targeting skill development and/or amelioration of challenging behaviours, our clinicians will work with the education team to develop an individualized intervention. In collaboration with the education team we can conduct a behavioural assessment, develop a treatment plan, support the education team to implement the plan, and provide data collection and progress analysis.

Knowledge Translation / Education

Workshops and presentations are available to the education team on topics such as Applied Behaviour Analysis (ABA), Autism Spectrum Disorder (ASD), challenging behaviours, increasing communication skills, social skills, etc. St. Amant will work with the education team to provide a presentation/workshop either at the school or off-site. These presentations / workshops are not student specific, but more general in nature.

Our goal in providing Enhanced Consultative Services is to work in collaboration with education teams to support the students to have the most positive and productive educational experience possible. The referral for the Enhanced Consultative Services must be approved by the student's divisional representative, the Student Services Administrator/Consultant (SSA/SSC). Parents are encouraged to work with their child's education team in preparing the referral.

Schools can refer using the Enhanced Consultative Services referral form which has been sent to all Student Services Administrators/Consultants (SSA/SSC) in Manitoba. The referral form can also be found online at www.stamant.ca under *Services / Autism Services/Enhanced Consultative Services*.

Referral forms can be sent to:

Central Intake, St. Amant, 440 River Road, Winnipeg, Manitoba R2M 3Z9
